

NOVEMBER 29

Opening ceremony of the Russian Robotics Week

Plenary session
Prospects of Russian Robotization - Current Challenges and
Development Scenarios

Robotization in Industry, Mechanical
Engineering and Metalworking
Joint session of the RRW
and the Russian

Robotization in warehouse logistics.
Joint round table with Transtech
exhibition

Measures of state support
for robotics

Science and education
in robotics

NOVEMBER 30

Robotization in agriculture

Robotization in machine tool engineering

Robotization in transport engineering -
automotive industry, shipbuilding, carriage
building, aerospace.

Robotization in the oil and gas sector,
offshore projects and energy.

Robotization in the pharmaceutical
industry and medicine

Robotization in the light
and textile industries

Robotization in the construction industry

Robotization in wood and furniture
industries

Unmanned transport, drones and
AGV robots

Service and android
robotics

Management of digital robotic production.
Digital twins and robot programming

Robotization in food production

Robotization in radio and
microelectronics instrumentation

DECEMBER 1

Software robots. Intelligent
robots. Chatbots robots.

Robotics for children

Robots in the
entertainment industry

Supplier's Day

Supplier's Day

Supplier's Day

Master class "How to get investment in an
innovative robotic project"

Master class "How to develop a feasibility
study and business plan for the
introduction of robotics"

Pitch session of robotic start-ups in
cooperation with St. Petersburg
Innovation Forum

Awarding the participants
of the competition
Robotics Skills

The architecture of the program is preliminary.
The program of the forum will be subject to changes

Also in the program:
(Check with the Organizing Committee for the location of these events)

Institute of Innovative Technologies in Business (IITB) trainings

Master Classes

Robotic show

Organizing committee:
(812) 644-01-26
