Dear Media Partners!

Hereby we inform that from November 19 to November 21, 2025, in St. Petersburg, as part of the Russian Robotics Week 2025 (RRW 2025), the VII-th International Robotics Forum will be held, which is a unique and only Russian platform demonstrating advanced robotic products, programming and control systems for high-tech equipment, including the use of artificial intelligence systems. The Forum website: <https://roboticsweek.ru/en/>

The Forum is organized by **the High-Tech & Engineering Cluster of the Northwestern Federal District of the Russian Federation "Creonomyca"**. The General partner is **R-Pro Concern**. Leading Russian and international robotics companies will act as partners of the Forum.

The Robotics Forum will include:

- a) an exhibition of robotic innovations, where companies from different countries will present their own developments for various industries;
- b) a conference on topical issues in robotics, automation, digitalization, seminars, workshops;
- c) joint sessions of vendors and industrial corporations implementing robotics (Vendor's Day);
- d) youth competitions in the Robotics Skills format in 5 competencies: industrial robotics, mobile robotics, additive production, digital production, robotic welding.

The key topic of the International Robotics Forum 2025: "Robotization as a national priority for domestic technological development".

After the entry into force of the Decree of the President of the Russian Federation dated May 7, 2024 "On the national development goals of the Russian Federation for the period up to 2030 and for the future up to 2036", and in particular its provision on "entering the Russian Federation into the top 25 leading countries in the world in terms of robotic density by 2030", robotics has attracted enormous interest from potential users of such equipment.

The Forum will pay special attention to **the Exhibition of Robotics Innovations**. Over the course of three days, manufacturing companies will be able to demonstrate their achievements in the field of robotics, the level of profitability and efficiency of their products, and as a result, enter into direct communication with potential customers.

More than 70 speakers will present their work within the Business Programme in 16 thematic sections.

The International Robotics Forum is the only event in Russia dedicated to all aspects of robotics (in mechanical engineering and metalworking, shipbuilding, railcar building, aerospace industry, oil and gas sector and offshore projects, machine tool building, instrument making and microelectronics, food production and agriculture, construction, warehouse logistics, textile and light industry, medicine and pharmaceuticals, entertainment industry, etc.).

Every year, the Forum brings together leading Russian and international experts in order to develop a strategy for reforming the robotics market, for introducing new approaches and technologies in this

area, and for establishing effective interaction and cooperation with friendly countries. In 2024, the event was attended by more than 1,500 people: representatives of more than 750 industrial enterprises and 45 educational institutions from 43 regions of Russia and 15 countries.

Managers, chief engineers and technical specialists of industrial enterprises, automation and digital transformation managers, system integrators, manufacturers of software for programming and controlling robots, technology parks and business incubators, representatives of government authorities, major research institutes and investors are invited to participate in the Event.

Dates: from November 19, 2025 to November 21, 2025

Venue: St. Petersburg, PetroCongress Center (5 Lodeynopolskaya Street)

Visiting the RRW is free, registration is required on the website <https://roboticsweek.ru/en/>

We invite You to become a Media partner of the VII-th International Robotics Forum 2025!

As part of the information partnership, the Organizing Committee offers the following opportunities:

On the part of the Organizing Committee:

- Placement of your logo on the Forum website;
- The status of a Media Partner;
- Accreditation of the publisher's employees for the Forum (by registration on the website in the category Media);
- Possibility of distribution of your journals/printed materials at the Forum (up to 50 copies) – if there is an article or advertisement about the Forum or about its organizer.

On the part of the Media partner:

- Placement of the Forum logo/advertising banner on your website;
- Placement of press and post-release of the Forum;
- Posting interviews with organizers/participants or an expert article;
- Photo or video report about the Forum.

We are open to your counter offers and looking forward to our mutually fruitful cooperation!

Organizing Committee of RRW-2025:
Rudakova Tatiana,
Head of Event Management Department,
